Department Recommendation:

Staff recommends the City Council authorize the purchase of a new Dewatering Screw Press and installation for a cost of \$83,188.89 with a 10% contingency for a total project cost of \$91,507.78

Summary:

The existing Dewatering press at the Wastewater Treatment Plant has reached the end of its operational service life and has experienced catastrophic mechanical failure. Replacement of the unit is necessary to maintain reliable biosolid processing operations, improve sludge cake solid concentration, reduce operational downtime, and ensure continued compliance with wastewater treatment operational and regulatory requirements.

Background:

The sludge dewatering Screw press is a critical component of the Wastewater Treatment Plant's solids handling process. The system mechanically separates water from waste activated sludge and biosolids generated during the treatment process, reducing sludge volume prior to hauling and disposal. Efficient dewatering operations directly affect plant performance, hauling frequency, disposal costs, polymer consumption, and overall operational efficiency.

The existing dewatering press has been in continuous operation for 26 years in harsh and corrosive wastewater treatment environment. The screw press typical average useful life is approximately ten years. Dewatering screw presses have Due to age and equipment

deterioration, the unit has experienced recurring mechanical and operational deficiencies including bearing wear, reduced solids capture efficiency, excessive vibration, hydraulic and drive component failures, inconsistent sludge cake dryness, and increased maintenance intervals. In addition, replacement parts and manufacturer support for the existing unit have become increasingly limited, resulting in extended repair times and increased risk of prolonged operational downtime.

The declining performance of the current equipment has negatively impacted sludge processing efficiency and operational reliability. Reduced dewatering effectiveness increases sludge volume and moisture content, resulting in additional hauling and disposal costs. The proposed system is designed to integrate with the City's existing sludge processing infrastructure and control systems.

The replacement dewatering system will incorporate modern control and automation features, improving operator monitoring and process adjustments while reducing manual operational demands. Installation of the new dewatering press will improve process stability, increase equipment reliability, reduce unplanned maintenance downtime, and support the Wastewater Treatment Plant's long-term operational sustainability and regulatory compliance

Currently while the dewatering screw press is out of operation, staff must remove the biosolids manually, causing increased risk of exposure to biohazardous materials, and consuming significant staff time.

Fiscal Impact:

- Total Cost for Purchase and Installation: \$83,188.89 with a 10% contingency of \$8,262.10 for a total project cost of \$91,507.78.
- Funding Source: Wastewater CIP 107.441.080.044).

Department Recommendation:

Staff recommend that the City Council ratify the emergency repair of the City's Vector truck in the amount of \$15,490.93, including a 10% contingency, for a total not-to-exceed amount of \$17,040.00, and authorize the use of Wastewater funds. These repairs were necessary to restore the vehicle to full operation and ensure continued delivery of essential wastewater and storm drain maintenance services.

Summary:

The City's Vector truck experienced significant mechanical failure, rendering it inoperable and unable to support critical maintenance and emergency response operations. Due to the essential nature of this equipment, staff proceeded with repairs on an emergency basis, in accordance with the purchasing policy, in order to minimize service disruptions and restore operations as quickly as possible.

This item seeks City Council ratification of the emergency repairs and associated costs, including a contingency to address any additional issues identified during the repair process.

- Storm drain maintenance
- Emergency blockage response
- Preventative maintenance of the wastewater collection system

During routine operations, the vehicle sustained mechanical issues that resulted in a complete loss of functionality. This created an immediate risk to the City's ability to maintain its wastewater infrastructure and respond to urgent service needs.

Given the Vactor truck's role in protecting public health, preventing sewer backups, and maintaining system reliability, prompt repair was necessary. Any delay would have extended downtime, increased the risk of system failures, and reduced the Department's ability to respond to emergencies and perform scheduled maintenance.

Fiscal Impact:

Department Recommendation:

Staff recommends that the City Council adopt Resolution No. 2026-16, ordering the November 3, 2026, General Municipal Election; requesting consolidation with the Statewide General Election; and requesting the Tulare County Registrar of Voters to provide election services.

Background & Summary:

In April 2026, the City of Exeter received its General Election information packet from the Tulare County Registrar of Voters (ROV), which included required forms, timelines, and a consolidation resolution template necessary for participation in the November 3, 2026, General Election.

The California Elections Code requires that a general municipal election be held in even-numbered years to elect City Council Members whose terms are expiring. For the November 3, 2026 election, three (3) City Council seats will be up for election. These seats are for District A, District C, and District D.

To facilitate the administration of the election, the City must formally request that the Tulare County Board of Supervisors permit the Registrar of Voters to conduct the election on behalf of the City and consolidate it with the statewide election. Consolidation allows the election to be

conducted efficiently using the County's established infrastructure, including ballot preparation, voter notification, polling operations, and canvassing of results.

Historically, the City of Exeter has requested election services from the Tulare County Registrar of Voters, as the City does not have the staffing or resources to independently administer a municipal election.

The proposed resolution orders the election, requests consolidation with the statewide election pursuant to Elections Code Section 10400, and specifies that the County will provide all necessary election services. The resolution also establishes that the City will reimburse the County for the actual cost of conducting the election, as required by Elections Code Section 10520.

Additionally, the resolution specifies that candidates will be responsible for payment of their candidate statements, which will be limited to 200 words, as has been historically done.

Timely adoption of this resolution is critical. The Registrar of Voters requires that all consolidation resolutions be submitted no later than early August 2026 (E-88), and failure to do so would prevent the County from conducting the election on behalf of the City.

Following adoption of the resolution:

- The nomination period will open on July 13, 2026, and close on August 7, 2026
- The City must submit required election documentation to the Registrar of Voters by established deadlines
- The Registrar of Voters will publish the Notice of Election and administer all election-related activities

At the close of the nomination period, the City may have the option to proceed with an appointment in lieu of election process pursuant to California Elections Code Section 10229, depending on the number of qualified candidates. Specifically, appointment in lieu may occur if the number of candidates nominated does not exceed the number of seats available.

Following the close of nominations, the Registrar of Voters will publish a notice identifying offices eligible for appointment in lieu. A five (5) day waiting period is then required. Based on the 2026 election calendar, this timeline is as follows:

- August 7, 2026 – Nomination period closes (or August 12, 2026, if extended)
- August 12, 2026 – Notice of election / eligibility for appointment in lieu published (estimated)
- August 17, 2026 – End of 5-day waiting period
- August 20, 2026 – Deadline (E-75) for City Council to adopt appointment in lieu resolution
- August 21, 2026 – Deadline to submit adopted resolution to the Registrar of Voters

City Council must take action to appoint candidates within this timeframe. The appointment resolution must be adopted no later than August 20, 2026 (E-75) and immediately transmitted to the Registrar of Voters upon adoption.

Fiscal Impact:

The City will be responsible for reimbursing the Tulare County Registrar of Voters for the actual cost of conducting the election. Based on the City’s 2024 municipal election costs, the estimated cost for the 2026 election from the Elections Office is approximately \$6,000. Actual costs may vary depending on services provided by the County. Sufficient funds have been included in the proposed Fiscal Year 2026–2027 budget.

Prior City Council Actions:

The City Council has historically adopted similar resolutions for each general municipal election, most recently on May 14, 2024.

Department Recommendation:

Staff recommend that the City Council authorize the City Administrator to sign an engagement letter with Rogers, Anderson, Malody & Scott LLP Certified Public Accountants for audit services for fiscal year 2025/2026.

Background & Summary:

The City of Exeter engaged Rogers, Anderson, Malody & Scott LLP (RAMS) for audit services in January of 2018 to perform annual independent audits of the City's finances to present audited financial statements to citizens as well as to various State and Federal agencies. RAMS has provided quality and timely services to the City for previous audits. The audit is completed by a different audit manager at a minimum every six years and is peer reviewed annually. Staff is requesting that the City engage with Rogers, Anderson, Malody & Scott LLP Certified Public Accountants for audit services for fiscal year 2025/2026.

RAMS has extensive experience in audit of government agencies over the past 78 years. An independent auditor is responsible for an audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), Government Auditing Standards of the Comptroller General of the United States of America (Government Auditing Standards), the requirement of the Single Audit Act, and the provisions of the audit requirements of Title 2 U.S.

Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost principles, and Audit Requirements for Federal Awards (Uniform Guidance), for the purpose of forming and expressing opinions on the financial statements, and on major federal award program compliance.

Audits include examining, on a test basis, evidence supporting the amounts and disclosures in financial statements. It includes obtaining an understanding of the agency, including its internal control, sufficient to assess the risks of material misstatement of the financial statements and the risk of material noncompliance in the major federal award programs. The audit communicates the following information.

- Any violation of laws or regulations that are discovered.
- Auditor's views relating to qualitative aspects of the agencies significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures.
- If any significant difficulties were identified during the audit.
- If any disagreements with management were encountered in the audit.
- Any significant unusual transactions were encountered.
- The potential effects of uncorrected misstatements on future period financial statements.
- Other significant matters that are relevant to the agency's responsibilities in overseeing the financial reporting process.

Fiscal Impact:

The estimated cost for the annual audit is \$37,450 which includes the Audited Annual Financial Statements and if a Single Audit is required, it would be performed for an additional \$6,260.

Staff does not anticipate a Single Audit being required for fiscal year 25/26. Funding for the audit is included in the budget and will be funded by the General Fund and other funds (enterprise funds, Gas Tax, Transportation, and Measure R Local) based on their share of the City's budget proportional to their share of revenue to account for their impact on the audit/financial services.

Prior City Council Actions:

The City Council approved engagement with Rogers, Anderson, Malody & Scott LLP Certified Public Accountants for audit services on January 9, 2018.

April 10, 2026

To the Honorable City Council
City of Exeter

This letter is provided in connection with our engagement to audit the financial statements and to audit compliance over major federal award programs of the City of Exeter (the entity) as of and for the year ended June 30, 2026. Professional standards require that we communicate with you certain items including our responsibilities with regard to the financial statement audit, the compliance audit, and the planned scope and timing of our audits.

Our Responsibilities

As stated in our engagement letter dated April 10, 2026, we are responsible for conducting our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), *Government Auditing Standards* of the Comptroller General of the United States of America (*Government Auditing Standards*) and the requirements of the Single Audit Act, as amended; and the provisions of the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), for the purpose of forming and expressing opinions on the financial statements, and on major federal award program compliance. Our audit does not relieve you or management of your respective responsibilities.

Our responsibility as it relates to the schedule of expenditures of federal awards is to evaluate its presentation for the purpose of forming and expressing an opinion as to whether it is presented fairly in all material respects in relation to the financial statements as a whole.

Our responsibility as it relates to other information is to evaluate its presentation for the purpose of forming and expressing an opinion as to whether the information is fairly stated in all material respects in relation to the financial statements as a whole.

Planned Scope of the Audit

Our audits will include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. Our audit procedures will also include determining major federal programs and performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the entity's major programs.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or material noncompliance may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS, *Government Auditing Standards*, the requirements of the Single Audit Act, as amended; and the provisions of the Uniform Guidance.

To the Honorable City Council
City of Exeter

Our audits will include obtaining an understanding of the entity and its environment, including its internal control, sufficient to assess the risks of material misstatement of the financial statements, the risk of material noncompliance in the major federal award programs, and as a basis for designing the nature, timing, and extent of further audit procedures. However, we will communicate to you at the conclusion of our audit, significant matters that are relevant to your responsibilities in overseeing the financial reporting process, including any material weaknesses, significant deficiencies, and violation of laws or regulations that come to our attention. We will also communicate to you:

- Any violation of laws or regulations that come to our attention;
- Our views relating to qualitative aspects of the entity's significant accounting practices, including accounting policies, accounting estimates, and financial statement disclosures;
- Significant difficulties, if any, encountered during the audit;
- Disagreements with management, if any, encountered during the audit;
- Significant unusual transactions, if any;
- The potential effects of uncorrected misstatements on future-period financial statements; and
- Other significant matters that are relevant to your responsibilities in overseeing the financial reporting process.

Certain significant risks are presumptive in most audits and merit attention by the auditors due to the direct impact over financial reporting and internal control processes. Although we are currently in the planning stage of our audit, the following presumptive significant risks are applicable to our audit and require special audit considerations:

- *Management's override of internal controls over financial reporting:* Auditors must consider and respond to the risk of management override of internal controls, which is the intervention by management in handling financial information and making decisions contrary to internal control policy.
- *Revenue recognition:* Auditors must consider and respond to the risk of management subversion of generally accepted accounting principles in determining how and when revenue is recognized.
- *Significant estimates:* Auditors must consider and respond to the risk of management bias in significant accounting estimates. Financial statement areas containing significant estimates can include, but are not limited to, net pension liability and related deferred inflows/outflows, net OPEB liability and related deferred inflows/outflows, leases receivable and related deferred inflows of resources, lease and subscription liabilities, right-to-use assets, depreciation and amortization expenses, and fair value measurements.

We expect to begin our audit on approximately October 26, 2026. Scott Manno, CPA, CGMA is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it.

This information is intended solely for the information and use of the City Council and management of the entity and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully,

Rogers, Anderson, Malody & Scott, LLP.

April 10, 2026

To the Honorable City Council
City of Exeter

You have requested that we audit the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Exeter (the entity), as of June 30, 2026, and for the year then ended, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

In addition, we will audit the entity's compliance over major federal award programs for the period ended June 30, 2026. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audits will be conducted with the objectives of our expressing an opinion on each opinion unit and an opinion on compliance regarding the entity's major federal award programs. The objectives of our audit of the financial statements are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America (*Government Auditing Standards*), will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

The objectives of our compliance audit are to obtain sufficient appropriate audit evidence to form opinions and report at the level specified in the governmental audit requirement about whether the entity complied in all material respects with the applicable compliance requirements and identify audit and reporting requirements specified in the governmental audit requirements that are supplementary to GAAS and *Government Auditing Standards*, if any, and perform procedures to address those requirements.

Accounting principles generally accepted in the United States of America (U.S. GAAP), as promulgated by the Governmental Accounting Standards Board (GASB) require that supplementary information, such as management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries.

To the Honorable City Council
City of Exeter

We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by accounting principles generally accepted in the United States of America. This RSI will be subjected to certain limited procedures but will not be audited:

- Management's Discussion and Analysis
- General Fund and major Special Revenue Funds Budgetary Comparison Schedules
- Pension Related Schedules

Supplementary information other than RSI will accompany the entity's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and perform certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on the following supplementary information in relation to the basic financial statements as a whole:

- Combining Statements

We will subject the schedule of expenditures of federal awards, if applicable, to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the schedule to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements as a whole.

Data Collection Form

Prior to the completion of our engagement, we will complete the sections of the Data Collection Form that are our responsibility. The form will summarize our audit findings, amounts and conclusions. It is management's responsibility to submit a reporting package including financial statements, schedule of expenditure of federal awards, summary schedule of prior audit findings and corrective action plan along with the Data Collection Form to the federal audit clearinghouse. The financial reporting package must be text searchable, unencrypted, and unlocked. Otherwise, the reporting package will not be accepted by the federal audit clearinghouse. We will assist you in the electronic submission and certification. You may request from us copies of our report for you to include with the reporting package submitted to pass-through entities.

The Data Collection Form is required to be submitted within the *earlier* of 30 days after receipt of our auditors' reports or nine months after the end of the audit period, unless specifically waived by a federal cognizant or oversight agency for audits. Data Collection Forms submitted untimely are one of the factors in assessing programs at a higher risk.

Audit of the Financial Statements

We will conduct our audits in accordance with GAAS, the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America, and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). As part of an audit in accordance with GAAS and *Government Auditing Standards*, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.

Although we are currently in the planning stage of our audit, we have identified the following significant risks during our audit to date that require special audit consideration:

- Management's override of internal controls is considered an inherent risk according to GAAS.
- Improper revenue recognition is considered an inherent risk according to GAAS.
- Significant estimates: Auditors must consider and respond to the risk of management bias in significant accounting estimates.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance may not be detected exists, even though the audit is properly planned and performed in accordance with GAAS and *Government Auditing Standards*. Please note that the determination of abuse is subjective and *Government Auditing Standards* does not require auditors to detect abuse.

Our responsibility as auditors is limited to the period covered by our audit and does not extend to any other periods.

To the Honorable City Council
City of Exeter

We will issue a written report upon completion of our audit of the entity's basic financial statements. Our report will be addressed to the City Council of the entity. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s) to our auditor's report, or if necessary, withdraw from the engagement. If our opinions on the basic financial statements are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue a report as a result of this engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

We also will issue a written report on the Appropriations Limit upon completion of our audit.

Audit of Major Program Compliance

Our audit of the entity's major federal award program(s) compliance will be conducted in accordance with the requirements of the Single Audit Act, as amended; and the Uniform Guidance, and will include tests of accounting records, a determination of major programs in accordance with the Uniform Guidance and other procedures we consider necessary to enable us to express such an opinion on major federal award program compliance and to render the required reports. We cannot provide assurance that an unmodified opinion on compliance will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or withdraw from the engagement.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether material noncompliance with applicable laws and regulations, the provisions of contracts and grant agreements applicable to major federal award programs, and the applicable compliance requirements occurred, whether due to fraud or error, and express an opinion on the entity's compliance based on the audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the entity's compliance with the requirements of the federal programs as a whole.

As part of a compliance audit in accordance with GAAS and *Government Auditing Standards*, we exercise professional judgment and maintain professional skepticism throughout the audit. We also identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

To the Honorable City Council
City of Exeter

Our procedures will consist of determining major federal programs and, performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the entity's major programs, and performing such other procedures as we consider necessary in the circumstances. The purpose of those procedures will be to express an opinion on the entity's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Also, as required by the Uniform Guidance, we will obtain an understanding of the entity's internal control over compliance relevant to the audit in order to design and perform tests of controls to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each of the entity's major federal award programs. Our tests will be less in scope than would be necessary to render an opinion on these controls and, accordingly, no opinion will be expressed in our report. However, we will communicate to you, regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we have identified during the audit.

We will issue a report on compliance that will include an opinion or disclaimer of opinion regarding the entity's major federal award programs, and a report on internal controls over compliance that will report any significant deficiencies and material weaknesses identified; however, such report will not express an opinion on internal control.

Management's Responsibilities

Our audit will be conducted on the basis that management acknowledge and understand that they have responsibility:

- For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
- For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;

- For disclosing accurately, currently, and completely the financial results of each federal award in accordance with the requirements of the award;

To the Honorable City Council
City of Exeter

- For submitting the reporting package and data collection form to the appropriate parties;

 - Additional information that we may request from management for the purpose of the audit; and
 - Unrestricted access to persons within the entity and others from whom we determine it necessary to obtain audit evidence.
- For adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current year under audit are immaterial, both individually and in the aggregate, to the financial statements as a whole;

- For the accuracy and completeness of all information provided;
- For taking reasonable measures to safeguard protected personally identifiable and other sensitive information; and
- For confirming your understanding of your responsibilities as defined in this letter to us in your management representation letter.

With regard to the schedule of expenditures of federal awards referred to above, you acknowledge and understand your responsibility (a) for the preparation of the schedule of expenditures of federal awards in accordance with the Uniform Guidance, (b) to provide us with the appropriate written representations regarding the schedule of expenditures of federal awards, (c) to include our report on the schedule of expenditures of federal awards in any document that contains the schedule of expenditures of federal awards and that indicates that we have reported on such schedule, and (d) to present the schedule of expenditures of federal awards with the audited financial statements, or if the schedule will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the schedule of expenditures of federal awards no later than the date of issuance by you of the schedule and our report thereon.

As part of our audit process, we will request from management written confirmation concerning representations made to us in connection with the audit.

Our firm is well equipped to support clients through these transitions and ensure that the audit process remains seamless. If the entity initiates a software change or conversion, our firm will work closely with entity staff to update account numbers, names, coding, and other financial data elements in alignment with the new system. However, due to the additional time and resources required to accommodate these changes, there will be a minimum charge of \$5,000 associated with this work.

This fee covers:

- Data Mapping and Reconciliation:
 - Updating account structures and mapping old accounts to the new accounts in our audit software.
 - Verifying accuracy and consistency in account names, numbers, and coding between the new system and our audit software.
- System Testing and Validation:
 - Testing reports and financial statements generated from the new system to ensure they align with audit requirements.
 - Addressing discrepancies or issues resulting from the conversion.
- Process Adjustments:
 - Modifying audit procedures to align with the new system's capabilities and reporting outputs.
 - Providing guidance on system-generated reports required for audit purposes.

Our fee for this engagement assumes the following: the entity will be adequately prepared for the audit and the entity's financial operations and working trial balance will be consistent from year to year. If, after we receive the working trial balances, we notice there are excessive new accounts over the prior year, or if there are excessive subsequent journal entries, or prepared by client workpapers that do not agree to the working trial balances, or there are new funds/functions within the entity, or other changes that necessitate a significant amount of time to address, we will need to come to an agreed-upon change order to address any possible additional costs incurred by the firm. If the need for additional work does come to our attention, we will immediately notify entity staff. If you choose to have us perform the additional work, then such work will be performed at the same hourly rates

To the Honorable City Council

- Material, corrected misstatements that were brought to the attention of management as a result of our audit procedures;
- Representations we requested from management;
- Management's consultations with other accountants, if any; and
- Significant issues, if any, arising from the audit that were discussed, or the subject of correspondence, with management.

Department Recommendation:

Staff recommends that the City Council authorize staff to release a Request for Proposals (RFP) for wastewater and drinking water system chief operator services, including all necessary operational and regulatory compliance responsibilities, with the option to exclude or modify proposed services as determined to be in the best interest of the City.

Summary:

Currently the City of Exeter contracts wastewater system chief operator services with Central Cal Waterworks, Inc. (CCW). The existing agreement expired in March 2025; however, the City Council authorized an extension through June 30, 2026, to allow staff time to evaluate operational needs and prepare a long-term plan for continued regulatory compliance and system operations.

Staff is recommending release of a Request for Proposals (RFP) to solicit competitive proposals for certified wastewater and drinking water operational services. The proposed RFP would include all necessary duties and responsibilities associated with regulatory compliance, reporting, monitoring, and chief operator oversight, while allowing the City flexibility to adjust the scope of services if deemed appropriate during the review process. The draft document requests proposals for an option to contract for chief operator services both wastewater and drinking water as well for only wastewater chief operator services.

Background:

The City of Exeter Wastewater Treatment Plant (WWTP) requires a certified level 3 Waste Water Operator to meet regulatory compliance requirements set forth by the State of California in accordance with our systems classification level. Due to the lack of certified staff, and the difficulty in finding a level 3 operator, the City elected to contract these operations to an outside source that holds the necessary certification. Along with the City's WWTP requirements, the City also contracted drinking water systems to the same contract operator. The City drinking water system currently requires a level 3 distribution operator, and for similar reasons drinking water operations was contracted to an outside contractor. The City has staff that are in the process of acquiring the required level 3 distribution certification that is required to operate the drinking water system.

The City has contracted with Central Cal Waterworks, Inc. since 2017, and the current contract was approved in 2022.

Once proposals are received and evaluated, staff will return to the City Council with a recommendation regarding contract award and associated costs.

Fiscal Impact:

There is no direct fiscal impact associated with authorization to release the Request for Proposals (RFP) itself.

Any future fiscal impact will be associated with the selection and award of a service agreement following completion of the RFP process. Staff will return to the City Council with a recommendation for contract award and associated costs for Council consideration and approval.

Prior City Council Actions:

On October 24, 2017, the Council authorized the execution of an initial agreement with Central Cal Waterworks, Inc. for Contract Chief Operator services for the City's Wastewater Treatment Plant and Water Distribution System.

On May 22, 2018, the City Council authorized an amendment to the initial agreement.

On March 22, 2022, the City Council authorized the City Administrator to enter into the current agreement with Central Cal Waterworks, Inc. for Contract Chief Operator services for the City's Wastewater Treatment Plant and Water Distribution System.

On October 14, 2025, the City Council approved Amendment No. 1 to the agreement, extending the term through January 31, 2026.

On January 27, 2026, the City Council approved Amendment No. 2 to the agreement, extending the term through June 30, 2026.

Recommended motion to be made by the City Council:

I move to authorize staff to release a Request for Proposals (RFP) for wastewater and drinking water system chief operator services, including all necessary operational and regulatory compliance responsibilities, with the option to exclude or modify proposed services as determined to be in the best interest of the City.

Such causes include, but are not limited to, acts of God or of the public enemy, floods, epidemics, quarantine restrictions, strikes, and unusually severe weather; but in the event the failure to perform is caused by the default of a subconsultant, the CONSULTANT shall not be liable for failure to perform, unless the services to be furnished by the subconsultant were obtainable from other sources in sufficient time and within budgeted resources to permit the CONSULTANT to meet the required delivery schedule or other performance requirements.

then the rights and obligations of the parties shall be the same as if the Agreement was terminated without cause.

Public Hearing to Consider Adoption of Resolution No. 2026-15, A Resolution of the City Council of the City of Exeter, Approving the City of Exeter's Fiscal Year 2026/27 List of Projects Funded by SB 1: The Road Repair and Accountability Act.

Contact Name:

Zachary Boudreaux, Director of Public Works

Department Recommendation:

City Staff recommends that the City Council adopt Resolution No. 2026-15. Adoption of this resolution is necessary for the City to receive and utilize SB 1 Road Maintenance and Rehabilitation Account (RMRA) funds in Fiscal Year 2026/27. The proposed project list reflects the City's most urgent infrastructure needs and demonstrates compliance with state transparency and accountability requirements.

Summary:

The City of Exeter is eligible to receive an estimated \$290,406 in RMRA funding under Senate Bill 1 (SB 1) during Fiscal Year 2026/27. To comply with SB 1 requirements and access these funds, the City must submit an annual list of proposed projects for approval by the City Council and reporting to the California Transportation Commission.

City Staff recommend allocating these funds to the reconstruction of Firebaugh Avenue, a vital roadway improvement project estimated to cost over \$6,000,000. This allocation ensures that available funds are applied toward the reconstruction of Firebaugh Avenue. This resolution includes a project timeline and estimate of how long the project will last which are new requirements of the state.

Background:

Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017, to address some of the significant multi-modal transportation funding shortfalls statewide. The purpose of the legislation is to provide ongoing funding to cities and counties for eligible roadway repair and maintenance projects.

SB 1 includes accountability and transparency provisions to ensure the residents of Exeter are aware of the projects proposed for funding in the community. The City must annually prepare and submit a list of all projects proposed to receive funding from the RMRA, created by SB 1. These projects must be adopted by resolution and submitted to the state prior to receiving funds.

For the upcoming fiscal year, Exeter is projected to receive \$290,406 and plans to apply these funds along with previous year allocations, toward the Firebaugh Avenue Reconstruction Project.

Firebaugh Avenue is planned for complete reconstruction to begin after the emergency waterline project to Tooleville is completed. The project is currently under design. The projected cost for the project is estimated to exceed \$6,000,000. RESOLUTION NO. 2026-15

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EXETER APPROVING THE CITY OF EXETER'S FISCAL YEAR 2026/27 LIST OF PROJECTS FUNDED BY SB 1: THE ROAD REPAIR AND ACCOUNTABILITY ACT

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017 in order to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of our City are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt by resolution a list of projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City, will receive an estimated \$290,406.00 in RMRA funding in Fiscal Year 2026/27 from SB 1; and

WHEREAS, this is the 9th year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the current balance in the City's RMRA funds is approximately \$850,002.28 and

WHEREAS, the City has undergone a robust public process to ensure public input into our community's transportation priorities/the project list; and

WHEREAS, the City used a Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the communities priorities for transportation investment; and

WHEREAS, the funding from SB 1 will help the City reconstruct Firebaugh Avenue and other street maintenance and rehabilitation projects; and

WHEREAS, the 2018 California Statewide Local Streets and Roads Needs Assessment found that the City streets and roads are in an at-risk condition and this revenue will help us

increase the overall quality of our road system and over the next decade will bring our streets and roads into a good condition; and

WHEREAS, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide.

NOW, THEREFORE IT IS HEREBY RESOLVED, by the City Council of the City of Exeter, State of California, as follows:

1. The foregoing recitals are true and correct.

The Firebaugh Avenue Reconstruction will be this years designated project for SB 1 funding.

The design is currently progressing to 90% construction plans and is expected to cost upwards of \$6,000,000. We currently have \$1,600,000 allocated to this project, making it imperative that the City of Exeter allocate all possible funds to the project. The project is estimated to begin in December 2026 and estimated to be completed in December 2027 should all go as planned. The estimated useful life of this reconstruction is ~20 years.

This project is consistent with the Department's recommendation that the RMRA funds be used to preserve the City's street investment. There is an emergency project to consolidate the water system at Tooleville, which will require sections of Firebaugh to be excavated for new water line. The Firebaugh Avenue reconstruction falls in line as the next order of business in this area of the City.

Application Questions

Briefly explain why you are interested in serving on the Measure P Citizens Oversight Committee.

I am a lifelong EXETER resident who has seen the ebbs and flows of our Police force and city government. What was once a robust and well-trained police force, currently lacks the resources to optimally perform their duties. I would like to insure the safety and our future of our town, and I feel this is the greatest way to do that.

Briefly explain your qualifications or area of demonstrated expertise to serve on the Committee.

As a former retail manager, I had to manage and budget department resources, and stick to very strict labor and loss prevention costs. Currently, as a telecommunications foreman, I manage and direct the allocation of company monetary resources, labor costs, and project timelines.

Agenda Item Staff Report

Agenda Item Number:

J.3.

Meeting Date:

May 12, 2026

Wording for Agenda:

Consider Authorizing Staff to Proceed with the Well 12 Rehabilitation Project, Including Pump and Motor Replacement, and Authorize a Sole Source Procurement through Kaweah Pump.

Submitting Department:

Public Works

Contact Name:

Zachary Boudreaux, Director of Public Works

Department Recommendation:

Staff recommends that the City Council:

- Authorize staff to proceed with the Well 12 Rehabilitation Project, including pump and motor replacement, with a total project budget not-to-exceed \$120,000.00; and
- Authorize sole source procurement through Kaweah Pump due to the urgent operational need and timing constraints associated with the formal bidding process.

Summary:

Well 12 is a critical groundwater production asset that has experienced a measurable decline in efficiency and output due to age-related wear and mineral accumulation. Recently, Well 12 has shown reduced production. Rehabilitation of Well 12 to restore its operational capacity is the most efficient option to improve water system supply.

Timely completion of this work will:

- Restore pumping efficiency and production capacity
- Help maintain more consistent system pressure throughout the distribution network
- Reduce the risk of unexpected equipment failure
- Extend the useful life of existing infrastructure
- Avoid significantly higher costs associated with full well replacement

(Initials Required)

J.R.

Staff estimates that this project will not exceed \$120,000.00.

Background:

The City’s water system relies on a network of groundwater wells to provide a safe, reliable, and consistent potable water supply to residents and businesses. Well 12 was developed in 2002 and plays an essential role in supporting overall production capacity and maintaining adequate system pressure across the distribution system.

Routine monitoring and operational data indicate that Well 12 is experiencing declining performance. This condition is typical for groundwater wells over time and is primarily attributed to:

- Mineral encrustation restricting water flow
- Sediment buildup reducing efficiency
- Mechanical wear of pumps, motors, and associated components

If left unaddressed, these conditions will continue to worsen, leading to further reduced water production, increased strain on other system wells, and a heightened risk of service disruptions—particularly during high-demand periods such as the summer season.

The proposed rehabilitation by Kaweah Pump is a comprehensive approach designed to restore the well to optimal operating condition. Anticipated work includes:

- Removal, inspection, and testing of the pump and motor
- Mechanical and chemical cleaning of the well casing and screens
- Replacement of worn or failing components including pump, motor, and control components
- Performance testing to verify restored capacity and efficiency
- Water quality testing to ensure safe drinking water standards are met

Over the past months, the City of Exeter water system has been significantly impacted by the loss of Well 9. After a downhole collapse, Well 9 began to pump sand, air, and reduced water production down to approximately 100 gallons per minute (gpm) from its previous 600gpm. This puts our system at a net loss of 500gpm compared to summer of 2025 which in itself resulted in reduced pressure throughout the system.

The City of Exeter municipal code requires that any project over a total value of \$75,000 be placed on open formal public bid. However, given the emergency nature of the situation and immediate demand for water production, Staff is recommending authorization to sole source this work to Kaweah Pump Inc. Kaweah Pump Inc. is familiar with the City’s water system and would be able expedite well repair. The City is nearing the peak summer season demand and it is critical to restore water production capacity. This rehabilitation strategy is operationally and financially prudent. Addressing the issue now minimizes the likelihood of emergency failures, reduces long-term maintenance costs, and preserves the City’s existing infrastructure investment.

Fiscal Impact:

- **Total Project Cost:** Estimated Not-to-Exceed \$120,000.00
- **Funding Source:** Water Capital Improvement Program (CIP) and Enterprise Funds
- **Budget Status:** Funds are available and appropriated within existing budgets

This project represents a cost-effective alternative to full well replacement, which would require significantly greater capital investment.

Recommended motion to be made by the City Council:
